STATEMENT ON THE ADOPTION OF THE 2012 BUDGET

“Last night, the Ulster County Legislature took an important and bipartisan step in keeping the nursing home open. As difficult and emotional as this issue is for all of us, I am glad that there is now a clearly defined path that will improve both the stability and sustainability to the facility. We must collectively move forward to ensure that the Golden Hill LDC provides quality care to residents, keeps these valuable jobs in our community and that Ulster County taxpayers are protected. This will undoubtedly bring forth new challenges. I am confident that together we can work through these issues, guaranteeing the delivery of this essential service.”

“I applaud my colleagues in the Ulster County Legislature for having the courage to move forward with a very difficult but necessary decision. Together we will continue to strive to make Ulster County a great place to live, work and raise a family.”
